

April Fool Issue -- Only Ads, Editorial Page Remain Unchanged To Protect Innocent

Miss Moehl

May Day festivities will be held April 22 - 23 at the Outlying Grounds. All are invited to attend, according to Dean of Students Ernest F. Oppermann, who will give the introduction of the queen and do the crowning.

Additional Queen Named, But She's Not Surprised

Reactions to this announcement have been varied. Miss Moehl said, "I was utterly amazed. Of course, I expected it. After not being named Homecoming Queen, I felt hurt."

"But now Marg can just have her crown. I like flower crowns better than diamond ones, anyhow."

Dr. John O. Chellovoid, dean of faculty, said, "I feel honored that such a person has been named. What a good way to get publicity for the Wartburg campus!"

Adding to Wartburg's listing of queens is still another. This addition is new this year, and the coronation will take place during May Day festivities on campus.

The title, "Queen of the Year," has been bestowed upon Wartburg's own Erna B. Moehl.

Criteria for the judging include personality, ability to get along with others and contributions to the Wartburg campus during the time the person has been here.

Three Thrilling Courses in P.E. Are Scheduled

Mission, said that six Nagasaki Regents are being shipped back for the class. They are expected to arrive this week.

Dry Run To Be Widened

The college has appropriated necessary funds to widen the Dry Run so that it may accommodate three subs, according to Business Manager Walter Fredrick, Jr. Races will start at the Fifth Avenue underpass and finish at the underpass of Bremer Avenue.

Construction of bleachers along the banks is already under way. They will provide seating capacity for approximately four thousand spectators.

This class will be held at night so that everyone from the college and the city will be able to attend.

Betting To Be Legalized

The course will not be offered, however, until the new farkles arrive.

Rules and other details in formation on saturday may be obtained by writing Vassar College, Poughkeepsie, New York.

Game Lasts 17 Hours

Harold Becker, director of church relations, and Sheriff Ron Shinn played a game in the gymnasium that lasted 17 hours, 47 minutes and 19 seconds.

Becker won the game on a default when Shinn knocked Becker off on the cement and into the floor drain.

Sassstrudy will also be offered as a night class to accommodate the multitudes of students who have expressed an interest.

The course will not be offered, however, until the new farkles arrive.

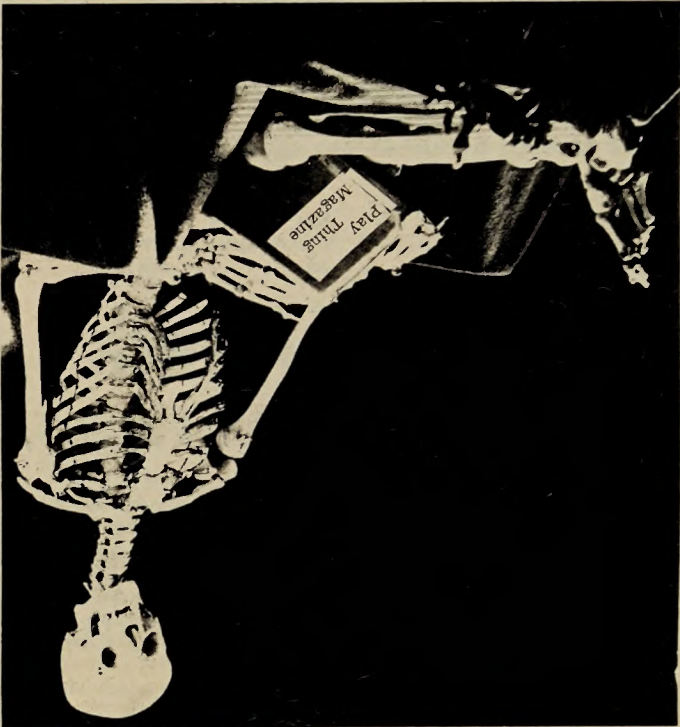

Rules and other details in formation on saturday may be obtained by writing Vassar College, Poughkeepsie, New York.

Three Thrilling Courses in P.E. Are Scheduled

The third new course offering is Sassstrudy. Its only prerequisite is having a keen mind. Promotion of this course has been greatly influenced by our Dartmouth Dart, John Moyers, who brought the game to us.

Death in Old Main! This grinning skeleton, identity unknown, was found in the attic of Old Main.

Found in this position, officers speculate the person tried to escape and then waited for the end.

held between the skeleton's body and the findings is currently being conducted by Dr. P. Mortem, head of the Archeology Department at the State College of Iowa.

Rattling Bunch Of Bones Found In Old Main Attic

By now you might be doubting the sanity of the Trumpet staff and wondering if this paper is for real. Set your mind at ease. The noble, infallible staff has only lost its senses temporarily. This issue is . . . April Fool!

Ads and the editorial page are straight. The rest of the paper is straight fluff and feathers. So, yuck it up, gang! The puns and Submarine Racing 001.

Coach Lee Bondhus, who recently returned from a trip to Japan with the Iowa Trade School, is scheduled for 2 p.m. tomorrow in the whirlpool next to Rick Olson's office.

A second aquatic class will also be added this spring to Wartburg's already fine aquatic program. This will be Beginning Submarine Racing 001.

His duties will be carried out, for the most part, under the auspicious eye of Dr. F. A. Gumz, a pragmatist. The courses he will instruct in the Philosophy Department are Philosophy of Religion and Philosophy of the Material.

Editor Gasps!

Under fire because of recent editorial attacks, Editor Mary Krohlow had taken refuge in her office. Shocked students found the noble journalist near death, reciting the press code of ethics.

Fantastic! Unbelievable . . . so unbelievable that reliable news sources have been reluctant to carry the story of yesterday's discovery of an unknown room annexed to the attic of Old Main. It was there that school officials uncovered the ossified remains of an unidentified individual -- presumably a former Wartburg student.

The age-old incident was pathetically retold with all its vivid reality by deep scratch marks on the interior of the heavy oak door and shattered amber glass liberally sprinkling the damp, fungus-covered floor.

Skeleton Found

A few steps from the entrance to the dark, musty room sat a human skeleton.

Oddly enough, the deteriorated form seemed to be in a relaxed position as though it (the sex of the remains had not been determined by press time) had anticipated its fate and had settled back to let death run its inevitable course.

Tried To Escape

According to authorities, a desperate struggle to escape the unknown individual's collapse into reluctant acceptance of an inescapable situation. Astoundingly, a "Play Thing" magazine (sex still undetermined) copyrighted 1919 was still

Policies Presented

The Wartburg Trumpet has as its primary function the communication to its readers of what is being done, felt and thought on campus.

In presenting this information, we have tried to observe the accepted standards of behavior and to treat all people with consideration and respect.

We do not expect plaudits for all that we do. This is a vigorous, outspoken newspaper.

We will not hesitate to expose the failures of public personalities when it is in the public interest to do so.

Nor through fear of criticism or accusations of bad taste will we flatter undeserving people in high places or shield wrongdoers.

We believe in the right of individuals and groups to express their opinions, whether they be in editorials, critical reviews, columns or letters to the editor.

The Trumpet pledge is that its staff will always act as responsible men and women in their pursuit of news.

--Adapted from the New York Daily Mirror

Letters To Editor

Mu Ling Returns Attack

Dear Editor:

Once there was a nippy editor with pen in hand,

Who was worried that her paper never really took a definite stand.

So worried in fact was she, M. Keen,

That upon a student senator she lit like a fiend.

Based on her shallow investigations of the facts,

She proceeded to give C. the well-known axe.

Incompetence she certainly did expose,

But not C's, but Miss Mary Krohlow's.

The poem above has a lot in common with your article appearing in the March 26th Trumpet. Both could be referred to as cutting and in fact derogatory in nature, and some might find them both very cute.

Both Untrue

However, the main point of the affinity between your article and the above poem is that both are basically untrue.

To level an attack of incompetency is to put one's self in a very precarious position.

This means that one sets himself up as a judge, which involves incorporating into oneself the es-

entials of a fair judgment, most important of which are knowledge of the facts, understanding of the facts and a criteria by which to view these same facts.

It is my conviction that you possessed none of the above prerequisites for judgment. Therefore, you are walking on thin ice, and if I could call you incompetent and mean it, we would fall through together.

Time Not Taken

Apparently you have not taken the time to find out what I have done for the Development Committee of which I am supposedly a cool, apathetic member. Secondly, as a committee member only, I am not the one that should be held responsible for the accomplishments of this committee.

What limited facts you have obtained from my "behind - the - back" fellow senators and student body officers, you have failed to understand.

I will not in my defense "do my laundry in public," but if you would like to question me concerning the personal reasons for my supposedly limited accomplishments, you may do so.

Also, you are in error in your judgment because you have no

criteria for competency or incompetency of a student senator.

Do you judge me by my deep desire to make student senate less concerned with organized trivialities and more concerned with the vital area of doing what all the students wish to be done?

Your public display of your gripes about incompetency is commendable, but your open and direct attack upon individuals in a paper which is read by many who will believe what you have said because they, like you, do not have all the facts, is outlandish.

I hope that out of this we both have learned something. I thank you for relating to me what has been going on behind my back, and to my fellow senators and student body I apologize for my incompetency.

Perhaps you have learned that doing research for an editorial means more than talking with a few powerful individuals.

Conrad Muehling

Soph Candidacy Is Discussed

To the Editor:

On Tuesday, April 5, the Wartburg student body will again be presented with an amendment permitting sophomores to run for student body offices.

The only difference between this one and the one presented two weeks ago is that the one to be considered this coming Tuesday prohibits sophomores from seeking the office of the Student Body President.

There are two reasons for making this change. The first is that many people feel that permitting sophomores to run for the office lowers its prestige.

Secondly, a sophomore having only two years of college experience does not have as broad an outlook on college life as does a junior. It is felt that consideration of these two items resulted in the defeat of the original amendment by a vote of 56-106.

I believe that it is worthwhile to note that the original amendment permitting sophomores to run for the student body presidency along with the rest of the student body offices squeaked by Student Senate by a vote of nine favoring, six opposing and three abstaining.

The modified proposal passed by the overwhelming majority of 14 favoring and 3 opposed last Monday night.

I hope that you will give this amendment considerable thought and that you will vote YES this coming Tuesday.

Sincerely,
Luther Ahrens

Convention Plans Made

By BILL HAMM

Television cameras, guest dignitaries, fascinated newspapermen and enthusiastic students--all are among the plans and hopes for the nominating convention to be held Friday and Saturday, April 15 and 16, starting at 7 p.m.

Word was received Thursday morning that the Honorable John C. Culver, U. S. congressman from the Second District of Iowa, will be on campus to deliver Friday evening's keynote address.

Culver, 33, received his A. B. (cum laude) and LL. B. degrees from Harvard. He was the Lionel de Jersey Harvard scholar at Emmanuel College, Cambridge University, and was later dean of men at the 1960 Harvard summer school.

Probably of most interest to students is Congressman Culver's strong friendship with the Kennedys, serving as Senator Robert Kennedy's legislative assistant from 1962-1963.

Elected to Congress November 3, 1964, Culver is noted for his speaking ability and great appeal to college-age youth.

Something new for our campus, and rare on the college scene, the convention will be an interesting change in the method of determining the final candidates for student body president.

Elections Commissioner Richard Bringewatt and Rules Committee Chairman Lu Ahrens stress that this convention will be a learning experience as well as a lot of fun.

Delegates to the Convention will be chosen from the various dormitory floors and residences. These delegates will be the only people allowed on the floor of the "convention hall" -- Knights Gymnasium. The balconies of the gym are expected to be filled with students and guests watching the convention and cheering for their candidate.

Surprises Expected

"Favorite son" candidates will live the convention proceedings and may provide some exciting surprises. These will accompany the Keynote address, caucusing, roll calls and demonstrations as other points to watch.

Besides increasing the interest of students in the student body elections, the convention should help to clarify the issues of the campaign and to emphasize them for a significant element of the student body.

Candidates for other offices of the student body--vice president, corresponding secretary, senate recorder and treasurer--will be introduced, but their primary election will not be held until the following Tuesday.

The tentative agenda is as follows:

Friday, 7 P.M.

- 1) Call to Order by Election Commissioner
- 2) Chairmanship of Convention turned over to the Convention Chairman
- 3) Presentation of the colors (Air Force Color Guard)
- 4) National Anthem
- 5) Invocation
- 6) Seating of the Delegates
- 7) Greetings by visiting dignitaries
- 8) Messages of greetings read for those unable to attend
- 9) Entertainment
- 10) Introduction of the Keynote speaker
- 11) Keynote speech
- 12) Entertainment
- 13) Nominations open
 - a) roll call
 - b) nominating speech
 - c) demonstrations
 - d) seconding speech
- 14) Nominations declared closed
- 15) Entertainment
- 16) Benediction
- 17) Convention recess declared until Saturday at 7 p.m.

MOVIE

Woodruff Speech Well Organized; Audience Intelligence Questioned

Dear Editor:

Convo Review: Woodruff's Speech Dull

Whistler's Mother was dull, too!

How many speakers have been exciting and motivated the convocation audience to remain awake, alert and attentive?

Thus far in the school year of 1965 - 66 I can name two, definitely, and another handful came close to the point of penetration. Professor Baetke filled the seats with laughter with his satire on covocation and the speaker on language and semantics could well have been an actor.

Speech Is Organized

Dr. A. Bond Woodruff is not a campaign speech - maker for political office. His speech was well organized and fluently delivered. The position as Head of the Psychology Department at Northern Illinois University doesn't require acting ability as a prerequisite.

Dr. Woodruff had the opinion that he was addressing a group of intelligent people, and he did not perceive the necessity to structure his message to a lower framework of what should have been a previous foundational level.

He is accustomed to speaking to people eager to enrich their learning faculties. Apparently

this idea is not fitting to the Wartburg campus.

Thoughts Provoked

Point (1) of Woodruff's speech to inform should have been enough food for thought. (1) An understanding of man living in a meaningful relationship with the law.

I was wrong after observing the response to this point. I surmise that this is only a dull subject not worth the merit of using the cerebrum for a meager bit of thought. After all, this idea will only be a major factor for the rest of our lives.

Warmth Is Shown

Dr. Woodruff opened his address with warm statements of interest in Wartburg College, and after he departed to Illinois the man was criticized by a student who knows little of nothing about psychology.

Poor taste and disrespect was not only shown to Dr. Woodruff, but also to his close friend, Dr. Hanawalt, and Dr. Fruehling for having sent the invitation for Woodruff's visit.

The entire psychology department took a decisive blow from an outsider, a stranger to the Psychology-Science Annex.

Thank you for remembering Arnold!

A senior psychology major,
Jack Wendt

Intelligent Students Appealed To

To whom it may concern:

By now, those of you who have read the editorial which appeared March 26, 1966, entitled "Incompetence Is Exposed," are convinced that I, "alias R. Green," was irresponsible and incompetent in carrying out my duties as a member of Student Senate -- or are you??

You, as intelligent students and voters, must realize that only one side of the picture was presented, and a distorted and misinformed picture at that.

However, I believe that I was carrying out my duties as a senator! I voted on all issues presented, and I took part in worthwhile discussion.

Why 'Incompetent'?

Was I judged "incompetent" because I did not volunteer for all of the trivial committees which were organized during the year?

Or perhaps I was not doing my duty because I was not continually discussing "important" issues with students. Maybe I was supposed to have said, "Gather 'round, seniors, and I'll read the Senate minutes to you."

As for my doing "little or nothing worthwhile" while acting as chairman of the Student Action Committee, students must keep in mind that the "few months" refers to the summer months, and how much do any of the committees do over the summer?

Chairman For Two Weeks

I was chairman for about two weeks last September after school started, and I asked to be relieved of this chairmanship for personal reasons, which are available to anyone who wishes to discuss them with me.

I am of the opinion that this article was written in poor taste to try and get the idea of "incompetency" across. But who was incompetent? The senators or the students? For "in the end the responsibility rests on us" (meaning students), so the editorial stated.

If this is the case, and it seems to me to be, then the blame rests upon ALL students, and not just on two.

Sincerely yours,
Roger Prehn

Secret Weaponry Foiled, EFO Comes To Rescue

Things looked gloomy for the Wartburg nine that day. The Golden Goophers had hatched an insidious plot to make the Knights Perhaps a UFO? No its EFO. There he was with all the force of a convo bulletin notice.

In a master stroke of dastardly ingenuity the Goophers had invented the world's first atomic bat-bat. The machine of disaster had been hatched in the slime skies daken. "Kazap!" A bolt of shrouded EFO to the dry run, which was swollen by the down-pour. Blistering in the water was the entire Goopher team.

Goophers when they arrived in Waverly. Their first baseman was so large that he became mired in the ooze of the dry run. It took the efforts of Dick's Conoco and the crew fresh from wrecking the Science Annex to extricate him.

Darkness Descends

Darkness was fast descending on the gathered throng, who managed to rouse themselves from the Spring Break stupor. "Batter up!" the umpire shouted.

The first Knight strode confidently into the batter's box. Lead-off slugger, Roger Kittle-son, took a measured swing and pounced his feet on the turf. The stretch. The pitch. Like a blaze of blue lightning the sphere left its vapor trail in the air. Invisible, the ball thudded resoundingly into the catcher's mitt.

Ball Invisible

What devilry was this? The ball was completely invisible to the batsman. Yet the umpire had no trouble calling strikes. Curiously enough, the Goophers demanded a new ball when the Knights were retired.

Now the Atomic bat-bat went into action. At the end of the first ending, Assistant Coach John Kurt called IBM to deliver a computer sufficiently complex to tally the score.

After the first hour and a half the scores were already using scientific notation. Moist-eyed Mark Holtz and Bill Giltz inundated the broadcasting booth with their own brand of saline solution.

Time Runs Out

Could anything save the Knights from their plight? With the last rays of light fading in the west, time was running out for the Wartburg diamondmen. The forces of evil seemed triumphant. Kurt called his men to the dug-out for a prayer vigil. In case this didn't work, he had hired four Hopi Indians to perform a rain dance.

Suddenly a pillar of fire appeared in the west. The

messianic hope of the Knights began to fall, and the game was weather.

Is it a bird? Is it a plane? called because of inclement weather.

"We haven't lost a game yet," EFO commented as a Goopher got screwed (a Bullwinkle term) on the railroad grade.

The Knights carried the cape-shrouded EFO to the dry run, which was swollen by the down-pour. Blistering in the water was the entire Goopher team.

"Splat, splat, splat," the rain "whomp."

Nothing went right for the of the South St. Paul stockyard. Lightning felled a Goopher -- Goophers when they arrived in Waverly. Their first baseman was so large that he became mired in the ooze of the dry run. It took the efforts of Dick's Conoco and the crew fresh from wrecking the Science Annex to extricate him.

E.F.O. strikes again! Freshman Dennis Zehr thanks baseball's greatest hero, E.F.O. Black-caped and stern, E.F.O. used his mighty bat to cause rain and dampen the insidious Minnesota Goophers.

E.F.O. strikes again! Freshman Dennis Zehr thanks baseball's greatest hero, E.F.O. Black-caped and stern, E.F.O. used his mighty bat to cause rain and dampen the insidious Minnesota Goophers.

messianic hope of the Knights began to fall, and the game was weather.

Is it a bird? Is it a plane? called because of inclement weather.

"We haven't lost a game yet," EFO commented as a Goopher got screwed (a Bullwinkle term) on the railroad grade.

The Knights carried the cape-shrouded EFO to the dry run, which was swollen by the down-pour. Blistering in the water was the entire Goopher team.

"Splat, splat, splat," the rain "whomp."

Nothing went right for the of the South St. Paul stockyard. Lightning felled a Goopher -- Goophers when they arrived in Waverly. Their first baseman was so large that he became mired in the ooze of the dry run. It took the efforts of Dick's Conoco and the crew fresh from wrecking the Science Annex to extricate him.
